SIMLA, SATURDAY, OCTOBER 31, 1959 (KARTIK 9, 1881)

Separate paging is given to this Part in order that it may be filed as a separate compilation

## PART III—SECTION 2

### Notifications and Notices issued by the Patent Office relating to Patents and Designs

#### THE PATENT OFFICE

#### Patents and Designs

Calcutta, the 31st October 1959

#### CORRIGENDA

(1)

In the Gazette of India, Part III, Sec. 2, dated 12th September 1959.

In page 241, column 1, under the heading "Application for Patents",

Against No. 68868,

for "Dr. K. N. Gaind. The production of phenyl-"  
read "Dr. K. N. Gaind. The production of p phenyl-".

In page 241, column 2 under the heading "Application for Patents",

Against No. 68887

for "Sky Blue Chemical Industries, Pain removing com-"

read "Sky Blue Chemical Industries, Paint removing com-".

(2)

In the Gazette of India, Part III, Sec. 2, dated 19th September 1959.

In page 245, column 2, under the heading "Application for Patents",

Against No. 68962

for "Siemens Edison Swan Limited. Improvements relating to lighting fittings. (8th September"

read "Siemens Edison Swan Limited. Improvements relating to lighting fittings. (8th September 1958)".

In the Gazette of India, Part III, Sec. 2, dated 19th September 1959.

In page 250, column 2, under the heading "Name and Register number".

Against group I—

for "International Combustition (Holdings) Ltd.—68642."

read "International Combustion (Holdings) Ltd.—68642."

for "Inventa, A. G. Furforschung Und Patentwertung—68743, 68761, 68839, 68840, 68841."

read "Inventa, A. G. Furforschung Und Patentwertung—68743, 68761, 68839, 68840, 68841."

In page 251, column 2, under the heading "Name and Register number",

Against group "Z"—

for "Ziegler, K.—58598"

read "Ziegler, K.—68598"

#### Application for Patents

The dates shown in crescent brackets are the dates claimed under Section 78A of the Act.

15th October 1959

69341. National Malleable and Steel Castings Company. Improvements in or relating to material handling equipment. (17th July 1959).

69342. K. Hariharan. A method and apparatus for the application of colour to textile material to produce a shade which progressively increases in depth from one end to the other.

69343. Plastics Concern. A badge.

69344. Shri Ram Institute for Industrial Research. A process for the production of gums from guar or locust seeds.

69345. T. V. Sundram Iyengar & Sons Private Limited. Improvements relating to backrests of seats in motor vehicles.

69346. Etablissements Notec. Machine for producing flexible pipes.

69347. J. R. Geigy A.-G. Process for the production of reactive dyestuffs.

69348. Aktiebolaget Bofors. Sealing device for firearms arranged in protective turrets.

69349. Metallurgical Processes Limited, and The National Smelting Company Limited. Improvements in or relating to the removal of cadmium from zinc. (16th October 1958).

69350. National Lead Company. Metal titanate preparation. (25th September 1959).

69351. Westinghouse Brake & Signal Company Limited. Improvements relating to remote control systems. (29th October 1958).

69352. Imperial Chemical Industries Limited. New monoazo dyestuffs. (28th November 1958).

69353. The Distillers Company Limited. Production of yeast. (10th November 1958).

69354. Commissariat A L'Energie Atomique. New method of connecting solid moderator rods in an atomic pile.

69355. Commissariat A L'Energie Atomique. Improvements in nuclear reactor moderator structures.
69356. J. R. Hightower. Treating concrete ingredients and apparatus therefor.
69357. E. R. Colombowalla. An improved device for regulating air-displacement of fans, blowers and the like air-circulators.
69358. Compagnie De Saint-Gobain. A neutron flux dosimeter. (10th July 1959).
69359. Creed and Company Limited. Improvements in or relating to printing telegraph apparatus. (9th August 1957). [Divisional date 8th August 1958.]
69360. "OFU" Ofenbau-Union G.m.b.H. Process for the production of a gaseous heat conveyor and combustion furnace for carrying out the process.
69361. "OFU" Ofenbau-Union G.m.b.H. Improvements in or relating to schrittmacher type of furnaces.
69362. Firma Ariston Schuhfabrik Romen G.m.b.H. Footwear, especially lady's shoe with high heel.
69363. V. Sooryn. Process for making silver nitrate.
- 17th October 1959
69364. G. Singh. Insulation boards from vegetable wastes material.
69365. The General Electric Company Limited. Improvements in or relating to the preparation of semiconductors. (22nd October 1958).
69366. Westinghouse Brake and Signal Company Limited. Improvements relating to railway vehicle vacuum braking apparatus. (16th December 1958). [Addition to No. 68788.]
69367. United Kingdom Atomic Energy Authority. Improvements in or relating to apparatus and method for liquid, liquid extraction. (20th October 1958).
69368. Aircraft-Marine Products (Great Britain) Limited, and Joseph Lucas (Industries) Limited. Electrical contact and contact assembly. (21st October 1958).
- 19th October 1959
69369. Council of Scientific and Industrial Research. A new bonding agent for the manufacture of abrasive articles, cast and moulded articles or the like.
69370. Somenath Kundoo. Hose clumps and clips.
69371. Messrs. Knoll Aktiengesellschaft, Chemische Fabriken, Ludwigshafen on Rhine. Fungicidal agent.
69372. Waggonfabrik Talbot. Railway trucks.
69373. Union Carbide Corporation. Improved arc torch. (9th April 1959).
69374. Imperial Chemical Industries Limited. New dyeing process. (7th November 1958).
69375. Dunlop Rubber Company Limited. Improvements in or relating to belting.
69376. Glaxo Laboratories Limited. Improvements in or relating to antibiotics. (23rd October 1958). [Addition to No. 62969.]
69377. The Mond Nickel Company Limited. Improvements in nickel chromium alloys. (21st October 1958).
69378. Wilbot-Breeden Limited. Improvements in or relating to releasable fastening devices. (22nd October 1958). [Addition to No. 60858.]
69379. E. I. du Pont de Nemours and Company. Insecticidal compositions.
69380. K. Abildgaard trading as Lovens Kemiske Fabrik Ved A. Kongsted. Method for the production of 6-methyl-steroid derivatives.
69381. Ciba Limited. Injectable solution.
69382. Ciba Limited. Manufacture of ethers.
69383. Council of Scientific and Industrial Research. Refining of castor oil.
- 20th October 1959
69384. Metropolitan-Vickers Electrical Company Limited. Flexible hose. (23rd October 1958).
69385. Ruti Machinery Works Ltd., formerly Casper Honegger. Attachment on an automatic loom for stripping off and holding the outer thread end of a weft bobbin to be inserted into the shuttle.
69386. Marshall Sons and Company Limited and C.A. Howe. A monitoring device for fluid level indicators. (20th October 1958).
69387. Shell Internationale Research Maatschappij N. V. Process for the preparation of hydrocarbon mixtures suitable for use as premium gasoline.
69388. Imperial Chemical Industries Limited. Organic compounds. (5th December 1958).
69389. Imperial Chemical Industries Limited. A manufacturing process. (8th December 1958).
69390. The English Electric Company Limited. Improvements in and relating to electrical distribution apparatus. (29th October 1958).
69391. The Distillers Company Limited. Production of yeast. (2nd April 1959).
69392. Union Carbide Corporation. Push-pull welding wire drive system. (9th July 1959).
69393. Tribars, Incorporated. Component for rubble-mound breakwaters.
69394. American Cyanamid Company. Method for peptide synthesis. (17th August 1959).
69395. American Cyanamid Company. Methods of peptide synthesis. (24th August 1959).
69396. American Cyanamid Company. Suture package.
69397. E. Meili. Motor-driven cross-country vehicle.
69398. Ciba Limited. Process for the manufacture of new imines.
69399. H. Ichinose. A fixing device for a driving roller or an automatic screen printing machine.
69400. W. K. Stamets, Jr. Stock measuring cutting machine.
69401. Union Carbide Corporation. Coal hydrogenation process.
69402. Union Carbide Corporation. Earth strata-hardness responsive means.
69403. Chinoin Gyogyszer Es Vegyeszeti Termekek Gyara Rt. Process for the preparation of *p*-nitrophenyl-serine.
69404. Applications Scientifiques, Techniques Industrielles Et Commerciales A.S.T.I.C. Improvements in or relating to mine roof supports. (14th May 1959).
69405. N. V. Onderzoekingsinstituut Research. An apparatus for the manufacture of artificial threads according to the wet-spinning method.
69406. Scherico Limited. Novel corticosteroids and processes for their manufacture. (19th November 1958).
69407. F. Hoffmann-La Roche & Co. Aktiengesellschaft. Process for the manufacture of carotenoids.
69408. M. F. Monk. An improved "False Twisting" device of a textile slubbing, inter, roving frame flyer.
69409. M. F. Monk. "Antiballooning trash removing device" for use on textile ring spinning or doubling frame.
- 21st October 1959
69410. Council of Scientific and Industrial Research. Improvements in or relating to the use of castor oil in surface coatings (Ricin Varnishes).
69411. United Kingdom Atomic Energy Authority. Improvements in or relating to nuclear reactors. (28th October 1958).
69412. Dunlop Rubber Company Limited. Device for traversing a tool or the like. (4th November 1959).
69413. A. Schmid and H. Hofer. Process and a shaft furnace for melting fusible materials.
69414. J. Dugler. Improvements in thermal treatments at high pressure.
69415. Indian Oxygen Limited. Electric arc welding electrodes. (22nd October 1958). [Addition to No. 62384.]

69416. Howa Kogyo Kabushiki Kaisha (Known as Howa Machinery Ltd.). Improvements in apron band coiler gear.
69417. M. M. Rohatgi. Process for the conversion of paint scraps deposited in spray booths into useful paint.
69418. L. K. Atha. Improvements in or relating to iron-oxide pigments.
69419. Farbwerke Hoechst Aktiengesellschaft vormals Meister Lucius and Bruning. Stabilized formaldehyde polymers and process for preparing same.
69420. R. Espetvedt. Sheathings for pipes and similar tubular members for protecting same. (14th April 1959).
69421. G. K. Damani. Improvements in or relating to glazing bar assemblies.
69422. Jyoti Prasad Mukherji. Improvements in or relating to sugarcane mills.
69423. Ciba Limited. Process for dyeing wool.
69424. Ciba Limited. Process for dyeing wool and cellulosic fibers simultaneously and preparations suitable therefor.
69425. Ciba Limited. Sulfamyl-3, 4-dihydropyrido-1, 2, 4-thiadiazine-1, 1-dioxides and process for their manufacture.
69426. Ciba Limited. Manufacture of new amines.
69427. Ciba Limited. Process for the manufacture of new ureas.
63706. General Electric Company. Improvements in or relating to "Food process and product". Accepted on 13th October 1959.
- Animal to be slaughtered is treated with an agent such as adrenaline capable of removing glycogen from muscles.*
63713. Bristol Laboratories International, S.A. Process of preparing new antibacterial agents. Accepted on 13th October 1959.
- Antibacterial agents comprises reacting a monocyclic aromatic mono-aldehyde with kanamycin base and separating the water-insoluble kanamycin product.*
63730. Vitreous Concrete Company Limited. Improvements in or relating to traffic ways. Accepted on 15th October 1959.
- Which comprises mixing fly-ash as an aggregate in a mix including setting accelerators.*
63746. The English Electric Company Limited. Improvements relating to regenerative braking systems for D.C. motors. (30th April 1957). Accepted on 15th October 1959.
- Including a relay arranged to be energized differentially in accordance with motor, armature.*
63751. J. R. Geigy A.-G. Process for the production of 4-nitrostyryl-2-sulphonic acid compounds. Accepted on 15th October 1959.
- Salts of 4-nitro-1-methylbenzene-2-sulphonic acid are condensed with aromatic aldehyde in the presence of a strong secondary nitrogen base.*

#### Alteration of Date

63730. The claim to priority date 15th April 1957 has been abandoned and the application dated as of 15th April 1958, the date of filing in India.
63765. The claim to priority date 17th April 1957 has been disallowed and the application dated as of 17th April 1958, the date of filing in India.
63767. The claim to priority date 18th April 1957 has been disallowed and the application dated as of 17th April 1958, the date of filing in India.
63835. The claim to priority date 15th May 1957 has been disallowed and the application dated as of 24th April 1958, the date of filing in India.

#### Applications Accepted

Notice is hereby given that all persons interested in opposing the grant of patents on any one of the applications referred to below may at any time within four months of the date of this Gazette of India give notice to the Patents Office in the prescribed form No. 6 of the Indian Patents and Designs Rules, 1933, of such opposition.

A limited number of printed copies of the specifications in the following list will be available for sale from the Government of India Book Depot, 8, Hastings Street, Calcutta, in due course. The price of each specification is Rs. 2 (postage extra, if sent out of India). Requisition for the supply of printed specifications should be accompanied by the numbers of specifications as shown in the following list.

If required typed copies of the specification together with copies of drawings, if any, can be supplied by the Patent Office on payment of the necessary charges which may be ascertained on application to the office.

The dates shown in crescent brackets are the dates allowed under Section 78-A of the Act.

63030. C. F. Boehringer & Soehne G.m.b.H. Sulphonyl urea compounds and a method of making same. Accepted on 20th October 1959.

*A benzene sulphonamide is condensed with an isocyanic acid ester and if desired the product is hydrolysed or reduced.*

63700. Ciba Limited. New aminophenylmercapto-pyridines and process for their manufacture. Accepted on 13th October 1959.

*Reacting 4-mercaptopyridine with nitro-halogen benzene.*

63755. The British Thomson-Houston Company Limited. Improvements in remote angular position control system. Accepted on 15th October 1959.

*Comprising selsyn transmitter and receiver, the rotor of which having two windings, one connected to electric supply, while the other is connected through amplifying means to energise electric motor coupled with receiver whereby to rotate the receiver into angular positional alignment with the transmitter.*

63757. Dr. F. Thenhalter. Method for the production of transfer positive films for textile printing rollers. Accepted on 15th October 1959.

*Using screen negatives for full shade, the half-and the quarter-tone and combining point-screen negatives with inclination of 45° for half and quarter tone and line screen negatives with inclination of 25 to 30° for full shade, only one etching depth being extant for full shade and half-and quarter tones produced by single etching process of the rollers.*

63761. Gay-Bell Corporation. Container formed from a flexible blank. Accepted on 20th October 1959.

*Comprised of is flexible blank, first score lines across said blank to define panel sections, a hoop-and-liner fastened to each longitudinal edge of said blank. A flexible lacing means for each said hoop-and-liner.*

63762. Gay-Bell Corporation. Metal hogshead. Accepted on 20th October 1959.

*Comprising a flexible metal blank scored to define upstanding staves and also having score lines and notches to define a hoop-and-liner for each longitudinal edge of said blank. And also flexible lacing means within the hollow chimes.*

63765. A. Nadai. Dispensing means for liquid containers. Accepted on 15th October 1959.

*Comprising porous reservoir member and a flexible, resilient and liquid permeable applicator membrane mounted in spaced confronting relation to the former.*

63766. Aluminium Laboratories Limited. Incorporation of metal pigments in coating compositions. Accepted on 17th October 1959.

*An aqueous dispersion consisting of a metallic pigment, a hydrocarbon solvent and a surface active agent.*

63767. R. Rummel. Method and device for refining or purifying metals, particularly by means of air refining. Accepted on 15th October 1959.

*Introducing in a bath of molten raw materials reaction media with uniform distribution over the bath and maintaining the bath in a turbulent motion.*

63790. Ciba Limited. New esters and a process for their manufacture. Accepted on 20th October 1959.

*3:20-dioxo-21-hydroxy-pregnane is reacted with tetrahydrophthalic acid.*

63791. Carter Products, Inc. 2-methyl-2-n-propyl-N-mono-substituted 1, 3-propane-diol dicarbamates. Accepted on 20th October 1959.

*A monocarbamate is reacted with cyanic acid, or a carbamic acid ester or with phosgene and then with ammonia or with an isocyanate.*

63796. Columbian Carbon Company. Rubber compounding. Accepted on 20th October 1959.

*In which carbon black is dispersed in the rubber while in latex form and the mixture thereafter coagulated.*

63835. Aktiebolaget Bofors. Method of producing N-alkyl- $\alpha$ -piperidine carboxylic acid anilides. Accepted on 20th October 1959.

*Picolinic acid salt of a dialkyl or trialkyl aniline is treated with a water absorbing agent at a temperature above 85°C and the product is hydrogenated and alkylated.*

63862. Newton, Chambers and Company Limited. An improved device for dispensing fluent materials. (8th May 1957). Accepted on 20th October 1959.

*Comprising a support consisting of upper and lower parts, a separate storage receptacle for holding fluent material.*

64030. Montecatini Societa Generale Per L'Industria Mineraria E Chimica. Process for the preparation of alkyl-(aryl) mercapto-methylenamides of O, O-dialkyl-thio (dithio)-phosphorylacetic acids with pesticidal activity. Accepted on 20th October 1959.

*Reacting mercaptane with N-methylolamide of O, O-dialkylthio or dithio-phosphoryl acetic acid.*

64079. P. de Ruggieri. Method for the preparation of 17-homologues of the 19-nor-testosterone and new relative intermediate compounds. Accepted on 20th October 1959.

*Converting ester-4-en-317-dione with acetone-cyanohydrin into corresponding 17-cyanohydrin derivative, converting said cyanohydrin derivative into 3-ethoxy-3, 5-diene, converting the diene into 17-alkyl-19-nor-testosterone and acidifying the resulting mixture.*

64089. Ciba Limited. Process for the manufacture of new cyclic decapeptides. Accepted on 20th October 1959.

*Treating with basic agent an acid salt of L-leucyl-L-leucyl-L-leucyl-D-phenyl-alanyl-L-proline carboxylic acid ester.*

64131. The General Electric Company Limited. Improvements in or relating to doors. (27th May 1957) Accepted on 20th October 1959.

*Comprising a frame, having a lip or step extending inwardly from the inner edge, and rearwardly directed flange part projecting from the inner edge of the lip or step, and a panel fitting in the frame on the lip or step.*

64155. The W.M. S. Merrell Company. Production of substituted triphenylethanols. (17th July 1957). Accepted on 20th October 1959.

*Reacting a dialkylamino-benzophenone with a benzyl-magnesium halide.*

64157. Ripple Sole Corporation. Resilient shoe soles. (30th January 1958). Accepted on 20th October 1959.

*Having a series of rib-like members spaced longitudinally along the sole, each rib-like member being curved transversely of the sole.*

64159. Imperial Chemical Industries Limited. New monoazo dyestuffs. (5th June 1957). [Addition to No. 55846.] Accepted on 20th October 1959.

*Interacting cyanuric acid and amino azo compound.*

64201. Union Carbide Corporation. Constricted arc metal removal. Accepted on 15th October 1959.

*Applying a constructed electric arc formed in a jet of gas such as nitrogen, hydrogen or mixture thereof, to the metal surface to be removed.*

64362. Ciba Limited. New imidazolidines and a process for their manufacture. Accepted on 20th October 1959.

*Intermolecularly condensing 3-amino-pyrazole, containing in 2-position a reactive hydroxyl group to the pyrazole [2:3-a]-imidazolidine.*

64429. Standard Telephones and Cables Limited. Electrical code signal transmitting and receiving equipment in which intelligence is conveyed in the form of signals each represented by a sequence of code elements. Accepted on 20th October 1959.

*Comprising input circuit, code conversion means and transmitting.*

64551. Organon Laboratories Limited. Process for the preparation of new esters of 19-nor-testosterone. Accepted on 20th October 1959.

*Converting 19-nor-testosterone into an ester of a saturated aliphatic carboxylic acid with 9-15 carbon atoms.*

64557. Otis Elevator Company. Overload protective device for electric circuit. Accepted on 20th October 1959.

*Characterized in that overload protective device is also provided with a restraining electromagnet excited to oppose the action of operating electromagnet in operating switching mechanism.*

64713. Union Carbide Corporation. 3-isopropylphenyl N-methylcarbamate and insecticidal compositions containing the same. Accepted on 20th October 1959.

*Reacting 3-isopropylphenol with methylisocyanate.*

64714. S. Favaro. Improvements in or relating to apparatus for driving gramophone records. (29th July 1957). Accepted on 15th October 1959.

*Having locating member projecting into spindle hole in record and first and second driving wheels driven by motor, the first wheel engaging a record and the second wheel engaging a record of bigger size, the records of the two sizes being driven at two different speeds.*

64740. J. C. Bajaj. Device for holding keys. Accepted on 15th October 1959.

*Comprising plastic core having one end spherical to be fitted into a socket fitted at the other end, there being a projection on the spherical portion and a corresponding slit on the wall of the socket.*

64887. R. Georges. Improvements in or relating to bladed wheels, more particularly for gas turbines. Accepted on 15th October 1959.
- Comprising in combination two discs coaxial with each other, a multiplicity of blades having their roots caught between the peripheral portions of said disc faces and an annular member held between said discs.
64988. Ciba Limited. A new antibiotic referred to as "Actinomycin Z and components thereof and pharmaceutical preparations containing these compounds and a process for making these substances Accepted on 15th October 1959.
- Aerobically cultivating streptomyces fradiae NRRL 2765 in aq-nutrient medium containing inorganic salts a sources of nitrogen and carbon.*
65164. Interasia Agencies. Cooling apparatus. Accepted on 15th October 1959.
- Comprising an evaporation tank wherein a storage tank is submerged, a cooling coil which is also submerged in the evaporation tank supplying water to the storage tank.
65315. Ciba Limited. Process for the production of colored synthetic resins. Accepted on 21st October 1959.
- Colouring condensation product of aliphatic aldehyde and nitrogenous compound with dye-stuff containing acid group and labile halogen atom and product same with acid.
65318. Whiffen and Sons Limited. Process for the extraction of alkaloids from ipecac. (2nd October 1957). Accepted on 20th October 1959.
- Extracting ipecacuanha with an aqueous mineral acid, treating the aqueous extract with one or more protein digesting enzymes.
65363. V. F. Fait. Improvements in or relating to packing boxes. Accepted on 15th October 1959.
- Composite boards formed by stiffening hessian or like fabric with card board or like, and creased so that it could be bent along the creases to provide flanges to overlap the boards constituting the adjacent sides of the box or their flanges.
65423. T. Piotrowski. Improved method and apparatus for manufacturing by expansion molding articles in thermo-plastic material. Accepted on 21st October 1959.
- Plastic material is injected over a core which serves to form a pre-shaped blank and as the source from which the plastic material will finally be blown into an expansion chamber.
65499. Westinghouse Brake & Signal Company Limited. Improvements relating to driver's brake valve devices for vacuum braking apparatus. (17th October 1957). Accepted on 17th October 1959.
- Comprising handle for altering the setting of device, press button switches cam means movable depending upon setting of the device and means for operating high rate evacuation switch.
65599. Simon-Carves Limited. Improvements in or relating to the grading or separation of raw materials. (5th November 1957). Accepted on 15th October 1959.
- Comprising a radio-active isotope emitting gamma rays, means for directing a collimated beam of the rays against a particulate sample layer not less than  $3\frac{1}{2}$  inches thickness, and means for measuring the intensity of a scattered ray deflected from the sample layer.
65672. C. J. Sawhney. Improvements in or relating to fuses on meter boards of electrical mains. Accepted on 20th October 1959.
- Fuse arranged with one end connected to the busbar and the other end connected to a tapping point each, each tapping point connecting the feed in line through a shifting lever fixed at the end of the shaft located centrally of tapping points which is operable from outside the box to contact any tapping point.
65758. R. P. Acharya. An educational device. Accepted on 20th October 1959.
- Comprising board with representations on it, an enclosure with recesses to receive balls, a device for shooting balls and discs bearing letters having metal pins such that they can be picked up by magnetic rod and placed on the representations.
65895. Montecatini Societa Generale Per L'Industria Mineraria E Chimica and K. Ziegler. Process for shaping isotactic polystyrene and relative articles. Accepted on 20th October 1959.
- The polymers are cooled from a temperature equal to or higher than their melting point to a temperature lower than or equal to room temperature at such a rate as to prevent their crystallisation.
66280. Pharma Trading Co. (Private) Ltd. Securing device for crates. Accepted on 20th October 1959.
- A body having prongs to be driven into the crate, the prongs having slots through which a fastening element of tapered shape and with one or more shoulders is to be driven in to engage the prongs.
66851. Daimler-Benz Aktiengesellschaft. Improvements relating to diesel engines with multi-jet injection. (23rd December 1958). Accepted on 13th October 1959.
- Into a combustion chamber in the piston, the jet axes being all inclined.

#### Opposition Proceedings

(1)

An opposition has been entered by Organa Trust Reg. to the grant of a patent on application No. 62167 made by Industrias Cemar, S. A.

(2)

An opposition has been entered by Chas. Pfizer & Co., Inc., to the grant of a patent on application No. 63208 made by American Cyanamid Co.

#### Correction of Clerical Errors

(1)

Under Section 62 of the Indian Patents and Designs Act, 1911, certain clerical error occurring in the application, Specification and Register of Patents in respect of Patent No. 59887 was corrected on 13th October 1959.

(2)

Under Section 62 of the Indian Patents and Designs Act, 1911, the statement of name of the Article in respect of design No. 98052 was corrected from 'Cylinder for Oil Expeller' to 'Cylinder for Oil Expeller (Kohlu)'.

#### Patents Sealed
